- And much more...

# UNIVERGE BLUE® ENGAGE CONTACT CENTER CUSTOMER BENEFITS

## INSPIRING INTERACTIONS

Total customizability in call flow ensures callers reach the right agents at the right time, while exceptional QA features deliver greater results.

### Skillsets

Skills-based routing means the agent most suitable to take the inquiry is reached.

### Callbacks

After a period of time, queued callers can request a callback and the next available agent will get their request. The system will wait to ensure the agent is ready before dialing – meaning better-prepared agents and interactions.

### Preferred Agent Routing

You can assign a certain agent to act as ‘point’ on complex cases; with Preferred Agent Routing, calls and chats will be routed to an agent of your choosing.

### Dashboards and Live Monitoring

Our Dashboards help you monitor the platform in real-time, including wait times, service levels, and much more. Live Monitoring lets you tune into specific interactions – and even take control as needed.

## CUSTOMER-CENTRIC CHANNELS

UNIVERGE BLUE® ENGAGE rolls up voice, chat, and e-mail queues into a single, streamlined omni-channel experience.

### Queues & Contact Center Agent

With UNIVERGE BLUE® ENGAGE, you can forget the idea of a ‘queue’ being only for voice calls. Powered by UNIVERGE BLUE® ENGAGE Agent Desktop software, voice, chat, and e-mail interactions are all seamlessly integrated.

## INCREASED INTERACTIVITY

Build auto-attendants that perform any number of tasks, from common to complex. Extend the capabilities even further with custom API integration!

### Auto-Attendant Studio

You can easily create custom auto-attendants and deploy advanced functions like variables, conditional logic, and much more. UNIVERGE BLUE® ENGAGE puts amazing power at your fingertips via an intuitive drag-and-drop visual interface. Plus, custom API integration delivers even greater functionality.

## IN-DEPTH INSIGHTS

Real-time insights get agents into context quickly, helping to deliver more informed responses that shorten times to resolution. Plus, deep historical reporting helps improve future interactions.

### Customer Journey

The Customer Journey feature shows agents, right in their Agent Desktop view, the recent touchpoints for a given caller so they’re up to date on where the story stands, and how they can more immediately and effectively address the situation.

### Custom Reports

You can choose from hundreds of pre-built reports on call distribution, service level adherence, unanswered calls, post-call surveys, and so much more. Our Product specialists can also develop custom reports to best meet your unique needs.

## OUTSTANDING OUTREACH

UNIVERGE BLUE® ENGAGE can be a profound force for customer outreach – empowering agents with tools such as dynamic notifications.

### Dynamic Notifications

Turn your contact center into an outreach powerhouse. From simple appointment reminders to multi-channel marketing campaigns, Dynamic Notifications dramatically extends a company’s reach while still respecting customer preferences.
